RE: Docket #98N-1038

Dear Sir or Madam:

As a consumer and an American I demand prominent labeling for irradiated foods – namely the use of the terms “irradiation” or “irradiated” and the use of the radura symbol.

I feel that proposed alternative terms such as “cold pasteurization” and “electronic pasteurization” are misleading and should not be used.

Absence of a statement would be misleading because irradiation destroys vitamins and causes changes in sensory and spoilage qualities that are not obvious or expected by the consumer.

Sincerely,
